

Proceeds from tonight's raffle will be donated to

The Theodora Foundation was founded in 1993 based on the following mission statement: Using the medium of laughter, ease the difficult daily lives of children who are either hospitalised or in institutions

In order to do this, the Foundation relies on the talent of professional artistes, the so called Docteurs Rêves (Dream Doctors). Coming from a wide variety of backgrounds (theatre, music, magic and circus) these artistes are brought together by the Foundation. On top of their own skills they are given specialised training by the Foundation at "La Source" Haute Ecole de la Santé so they are familiar with working in a hospital environment.

The Theodora Foundation organises and finances weekly visits by the Dream Doctors to their partner hospitals and institutions throughout Switzerland.
